South Dakota State University

ECE 478: Integrated Curriculum in Birth-to-Age-8 Education

Concepts addressed in this course: Major categories, advantages, and appropriate uses of instructional strategies: *Reflection*

Review assignment on action research project, also:

Reflection

- It is a metacognitive activity. The learner pauses to think about, and organize information gathered from reading, discussions, or other activities.

Reflection allows the learner with time to make connections between new knowledge and existing knowledge

Strategies

- Quick write about what was learned….list three things you learned about…
- The “L” part of the KWHL chart: What did you LEARN about?
- Create a skit where students dramatize what they learned
- The student verbalizes to teacher what was learned by reading a story, answering key questions, open-ended questions
