**SUBJECT: Approved Course Prefix List Cleanup**

In an effort to keep the master list of the system’s Approved Course Prefix reference list within the Academic Affairs Guidelines fully up-to-date, Trudy Zalud has conducted an initial review of all listed and has provided commentary/suggestions for those that could use additional review by the campuses. Also, any prefix considered obsolete has been separated out into its own section at the bottom of the spreadsheet.

AAC members are asked to review the spreadsheet provided at the link below, and provide additional clarification for those that have been highlighted for further review/discussion.
