SUBJECT

Student Climate Survey Update

CONTROLLING STATUTE, RULE, OR POLICY

None

BACKGROUND / DISCUSSION

The universities all issued campus climate surveys in Spring 2020 through Skyfactor. The system office is currently waiting for the SDSU data to be integrated with the system data to be able to report from the system level. We will then have Dr. Maher provide that information to the Board in one of his weekly updates. If a board member requests institution specific reports, we will provide them that information as well, but will not prepare a public board item on this topic. The results will also be provided as a part of the intellectual diversity report that will be submitted later this fall.

At the last COPS meeting, the COPS determined that we would complete the student climate surveys every other year, so there will not be a survey issued in Spring 2021.
