South Dakota Board of Regents
Student Costs at Public Institutions Regional Survey
Academic Year 2010-2011

The following report is a comprehensive look at student costs at all four-year public institutions in the contiguous states to South Dakota. Idaho is also included in the survey because of its economic and rural similarities with South Dakota.

The tuition and fee figures and room and board costs were collected in a survey of the surrounding states. All institutions were asked to report the cost of tuition and mandatory fees paid by full-time students. To assure comparability, a full-time undergraduate student was defined as a student taking 32 credit hours per year on a semester-based system or 48 credit hours using a quarter-based system. A full-time graduate student was defined as a student taking 24 credit hours a year on the semester-based system or 36 credit hours on a quarter-based system. The room and board costs were based on double occupancy room rates and a meal plan that would provide 15 meals per week. If the institution did not have a plan that provided 15 meals per week, it was asked to provide the plan closest to 15. All figures given are based on costs for the 2010-2011 academic year.

It is important to note that the non-resident rates do not reflect any reciprocity agreements or other tuition reduction programs between states. Therefore, a non-resident student could possibly attend a given institution at a lower cost than that indicated in this report.

The figures reflected in this study only include costs that are identified for all students. Special discipline fees are not included, since they cannot be identified for all students. Therefore, a student could pay costs higher than those reflected in this report if he or she were enrolled in a discipline with special support fees.

In this report, many averages are used to condense and simplify the information. Several of the tables utilize weighted averages. The formula below illustrates how they were derived. Room and board costs were added to the tuition and fee costs to derive total cost weighted averages.

$$\frac{\sum (\text{Inst. Headcount} * \text{Inst. Tuition/Fee Costs})}{\sum \text{State's Headcount Enrollment}} = \text{State's Weighted Average}$$

It is important not to over-simplify the application or use of averages. In order to gain a better understanding of the tuition situation, a ranking with similarly classified institutions is also provided.

The survey is divided into four sections. Section I provides a few summary tables comparing South Dakota university costs and South Dakota system weighted average costs for tuition and fees and total costs to comparable institution averages. Section II provides detail on the tuition and fee costs. Section III combines tuition and fee with room and board costs to

exhibit a total cost comparison. Within each section, the classifications of baccalaureate, masters and doctoral are used to compare like institutions. Finally, Section IV provides a historic comparison of tuition and fees and total costs for the institutions from 2001-2002 to 2010-2011.

The Carnegie Foundation for the Advancement of Teaching website, <http://www.carnegiefoundation.org>, is the source for the definitions of institutional classifications. Institutions are placed into the appropriate classification by information self-reported to the U.S. Department of Education's Integrated Postsecondary Education Data system (IPEDS). The Carnegie Foundation includes only those colleges and universities that are degree-granting and that are also accredited by an agency recognized by the United States Secretary of Education. The classifications do not consider the size of the institutions or the relative ranking within each category, but instead are based upon the annual number of degrees granted by student level (doctorate, masters, or baccalaureate) in a predetermined number of disciplines as referenced in the definition of classifications on pages 3 and 4 of this report.

A complete classification listing of surveyed institutions can be found on page 5. In accordance with classification definitions, the South Dakota universities are classified as follows:

BHSU	Baccalaureate Diverse	SDSM&T	Special Focus – Schools of Engineering
DSU	Baccalaureate Diverse	SDSU	Research Universities
NSU	Baccalaureate Diverse	USD	Research Universities

The South Dakota School of Mines and Technology is included in the averages and in the tables that compare similarly classified institutions as a Masters institution due to the limited number of specialized/engineering institutions in the survey. Montana Tech of the University of Montana is also included as a Masters institution for purposes of this Study.

A one-page summary of the tuition and fee costs for law and medical programs can also be found on page 23 at the end of Section II.

Definition of Classifications

The 2005 Carnegie Classification includes all colleges and universities in the United States that are degree-granting and accredited by an agency recognized by the U.S. Secretary of Education. After reviewing the Classification's strengths and weaknesses as well as its current uses, the Foundation undertook a thorough reassessment of its classification system. With the 2005 revision, the single classification system was replaced by a set of multiple, parallel classifications. The new classifications provide different lenses through which to view U.S. colleges and universities, offering researchers greater flexibility in meeting their analytic needs. The original classification framework—now called the basic classification—has also been substantially revised.¹

Doctorate-granting Universities

Includes institutions that award at least 20 doctoral degrees per year (excluding doctoral-level degrees that qualify recipients for entry into professional practice, such as the JD, MD, PharmD, DPT, etc.). Excludes Special Focus Institutions and Tribal Colleges.

RU/VH: Research Universities (very high research activity)

RU/H: Research Universities (high research activity)

DRU: Doctoral/Research Universities

Master's Colleges and Universities

Includes institutions that award at least 50 master's degrees per year. Excludes Special Focus Institutions and Tribal Colleges.

Master's/L: Master's Colleges and Universities (larger programs)

Master's/M: Master's Colleges and Universities (medium programs)

Master's/S: Master's Colleges and Universities (smaller programs)

Baccalaureate Colleges

Includes institutions where baccalaureate degrees represent at least 10 percent of all undergraduate degrees and that award fewer than 50 master's degrees or fewer than 20 doctoral degrees per year. Excludes Special Focus Institutions and Tribal Colleges.

Bac/A&S: Baccalaureate Colleges—Arts & Sciences

Bac/Diverse: Baccalaureate Colleges—Diverse Fields

Bac/Assoc: Baccalaureate/Associate's Colleges

¹ For definitions and detailed information on classification procedures, refer to the Technical Notes, <http://www.carnegiefoundation.org/Classification>. In addition, important limitations are documented in The 2005 Carnegie Classification: Background and Description. Both the technical notes and the background and description information may be found at <http://www.carnegiefoundation.org/Classification>.

Special Focus Institutions

Institutions awarding baccalaureate or higher-level degrees where a high concentration of degrees is in a single field or set of related fields. Excludes Tribal Colleges.

Spec/Faith: Theological seminaries, Bible colleges, and other faith-related institutions

Spec/Medical: Medical schools and medical centers

Spec/Health: Other health profession schools

Spec/Eng: Schools of engineering

Spec/Tech: Other technology-related schools

Spec/Bus: Schools of business and management

Spec/Arts: Schools of art, music, and design

Spec/Law: Schools of law

Spec/Other: Other special-focus institutions

Section I

Summary Comparison of South Dakota Costs to Surveyed States Academic Year 2010-2011

Section I compares the individual South Dakota university costs for tuition and fees and total cost to the weighted average for comparable institutions in the survey. The comparison includes the cost for undergraduate and graduate residents and non-residents. This data gives an overview of the differences in cost between each school in South Dakota and the average for the comparable institutions in the surveyed states. The information is found on pages 7 and 8.

Section I also includes a ranking of the states' weighted average costs for FY10 and FY11 and provides the percentage change in the average. This provides a quick view of the change in costs for a given state and where that state ranks in cost with the other states in the survey. Again, the tables compare tuition and fees and total costs for undergraduate and graduate residents and non-residents. The information is found on pages 9 and 10.

To assure comparability, a full-time undergraduate student was defined as a student taking 32 credit hours per year using a semester-based system or 48 credit hours using a quarter-based system. A fulltime graduate student was defined as a student taking 24 credit hours a year using a semester-based system or 36 hours a year using a quarter-based system.

Tuition and fees include only the tuition and mandatory fees paid by full-time students. Total cost includes tuition and fees and room and board costs. The room rates were based on a double occupancy room. Board rates are based on the meal plan that provides 15 meals per week or the next closest meal plan.

Section II

Tuition and Fee Cost Comparison

Section II compares only the tuition and mandatory fees paid by full-time students. To assure comparability, a full-time undergraduate student was defined as a student taking 32 credit hours per year using a semester-based system or 48 credit hours using a quarter-based system. A full-time graduate student was defined as a student taking 24 credit hours a year using a semester-based system or 36 credit hours a year using a quarter-based system.

Page 12 provides a complete listing of the public universities and colleges surveyed and the associated tuition and fee costs for undergraduate and graduate residents and non-residents. This table provides a summary of the information used in Section II and is not in ranked order.

Pages 13-14 provide the percent change from the prior year for the tuition and fee costs at all institutions surveyed. These pages will provide a quick comparison of tuition and fee cost increases over the past year.

Pages 15-16 show the weighted averages calculated for each state using the institutional tuition and fee costs given on page 12. This table uses the average cost for each student classification to rank the states from the least expensive to the most expensive. A weighted average cost of all institutions is also provided. Bar graphs showing the average tuition and fee cost by state for each student type are also included.

Pages 17-22 rank tuition and fee costs of the institutions by student type and institutional classification. This comparison provides a ranking from least expensive to most expensive for similarly classified institutions.

Page 23 shows the student costs for tuition and fees to attend professional programs for law and medicine. This table is not in ranked order.

Tuition and Fee Comparison by Institution Academic Year 2010-2011

	Undergraduate		Graduate	
	Resident	Non-Resident	Resident	Non-Resident

Section III

Total Cost Comparison

Section III compares the total costs paid by full-time students. To assure comparability, a full-time undergraduate student was defined as a student taking 32 credit hours a year using a semester-based system or 48 credit hours using a quarter based system. A full-time graduate student was defined as a student taking 24 hours a year using a semester-based system or 36 hours a year using a quarter-based system. "Total Cost" includes tuition and fees and room and board costs. The room rates were based on a double occupancy room, which is the most common. The board rates were based on the meal plan that provided 15 meals per week or the next closest plan.

Page 25 provides a complete listing of the public universities and colleges surveyed and the associated cost for tuition and fees and room and board for undergraduate and graduate resident and non-resident students. This table provides a summary of the information used in Section III and is not in ranked order.

Pages 26-27 provide the percent change from the prior year for the tuition and fees and room and board costs at all institutions surveyed. These pages will provide a quick comparison of total cost increases or decreases over the past year.

Pages 28-29 show the weighted averages calculated for each state using the institutional costs given on page 25. This table uses the average cost for each student type to rank the states from the least expensive to the most expensive. A weighted average cost of all institutions is also provided. Bar graphs showing the weighted average total cost of the institutions by student type are included.

Pages 30-35 rank the total cost of the institutions by student type and institutional classification. This comparison provides a ranking with similarly classified institutions.

Section IV

Historic Comparison of Tuition and Fees and Total Cost by Institution

Section IV provides a history of tuition and fees and total costs by institution for the years 2001-2002 to 2010-2011 paid by full-time students as reported by the institutions in past *Student Costs at Public Institutions*. To assure comparability, a full-time undergraduate student was defined as a student taking 32 credit hours a year using a semester-based system or 48 credit hours using a quarter based system. A full-time graduate student was defined as a student taking 24 hours a year using a semester-based system or 36 hours a year using a quarter-based system. “Total Cost” includes tuition and fees and room and board costs. The room rates were based on a double occupancy room, which is the most common. The board rates were based on the meal plan that provided 15 meals per week or the next closest plan.

* These schools adopted lower out of state rates in the last ten years. The changes were substantial. Most went to a rate equal to their state rate and others take their state rate and add a fixed amount.

*** A new tuition rate in South Dakota beginning in 2006-2007 allows incoming Undergraduate Non-Resident Students to attend at 150% of the Undergraduate Resident Rate.

*Metropolitan State University does not have residence halls.

** University of Nebraska at Omaha does not have a comparable meal plan in prior years

*** A new tuition rate in South Dakota beginning in 2006-2007 allows incoming Undergraduate Non-Resident Students to attend at 150% of the Undergraduate Resident Rate.

**** These schools adopted lower out of state rates in the last ten years. The changes were substantial. Most went to a rate equal to their state rate and others take their state rate and add a fixed amount.
