**Academic and Student Affairs**

**AGENDA ITEM: 4 – L (4)**

**DATE: March 30 – April 1, 2016**

\*\*\*\*\*

**SUBJECT: New Site: SDSU Minor in History**

South Dakota State University (SDSU) requests authorization to deliver the minor in History through online distance delivery. SDSU makes the request in response to growing demand for online programs. In addition, the online minor would provide additional options to comply with SDSU’s College of Arts and Sciences requirement that all students complete a minor. All courses in the minor are currently available online. Black Hills State University, Dakota State University, Northern State University, and the University of South Dakota all offer a face-to-face minor in History. In addition, Northern State is authorized to provide their Public History minor online.

SDSU is not requesting new state resources to deliver the program. Funding for the program will come from self-support tuition revenue generated from online tuition. SDSU estimates the online minor will produce 3 graduates per year after full implementation.

After approval by the President, a signed copy of the proposal should be transmitted to the Executive Director. Only after Executive Director review should the proposal be posted on the university web site and the Board staff and the other universities notified of the URL.

**1. What is the need for this program in this site (these sites)? What is the expected demand for graduates in the site(s)?**

South Dakota State University (SDSU) requests authorization to offer the minor in History through online delivery. Students will find that a minor in History can enhance a major program and provide intellectual and technical skills needed for today's workplace. It is also flexible enough so that students can follow their own particular interests. The courses offered prepare students for careers in various professional occupations, and provide a necessary background for graduate work or other specialized training. Students that pursue a minor in history originate from a variety of majors, including Geography, Journalism, Political Science, and Sociology. Enrollment in the minor at the main campus is at 24. The availability of the minor online provides the opportunity for place bound and off-campus students to also access the minor.

This proposal for an online minor in History supports SDSU's *IMPACT 2018* strategic plan<sup>1</sup>. The request supports Goal #3 Outreach: c) "Use emerging technologies and institutional collaboration to provide undergraduate, graduate, professional and continuing education focused on traditional and adult learners across the state, in the region, nation and globally."

The College of Arts and Sciences has recently implemented a degree requirement that requires a majority of their students to complete a minor as a part of their program. The addition of online minors will support the growing number of programs available to students through online delivery.

SDSU will not require additional resources. All courses are currently offered online. Students are already enrolling in the courses that are available.

**2. Is any regental university authorized to offer a similar program at the new site(s)? Is any non-system institution offering a similar program at the new site(s)? If either answer is “yes,” identify the institution(s) and program(s) and explain why authorization is requested.**

None of the other Regental universities offer a minor in History through online delivery. These institutions currently offer face to face majors/minors in History:

Black Hills State University

- History Major (B.A./B.S.) - this program is also offered at BHSU - RC
- History Teaching Major (B.S.Ed.)
- History Minor
- History Teaching Minor

Dakota State University

- History Minor

Northern State University

- History (B.A.)
- History (B.S.Ed.)
- History Minor
- Public History Minor - this program is also offered online
- Public History Certificate

University of South Dakota

- History (B.A./B.S.)
- History Education (B.S.Ed.)
- History Minor
- History Education Minor

**3. Are students expected to be new to the university or redirected from other programs or both? Complete the table and explain how the estimates were developed. How will the new site(s) affect enrollments in other campus and off-campus programs in the regental system?**

The University expects most of the students to be currently enrolled in the university. Students will either be new to the university (taking the minor to enhance or supplement a degree program at another institution) or current SDSU students that want to complete the minor online. Students like the flexibility of online programs which allow them to continue to live and work anywhere in the state while they’re completing their degree. It is not expected that the online minor will have much impact on the enrollments in face-to-face, on-campus courses. As seen in the table below, the online minor is expected to attract three students per year. Onsite students are already enrolling in the online courses that are available.

The curriculum for the existing minor is included in Appendix A. No new program modifications or new courses are being requested along with this new site request. As indicated in Appendix A, SDSU currently offers all courses in the minor as online courses.

**5. How will you provide student services comparable to those available for students on the main campus?**

The student's academic advisor will be available to assist them in pursuing the minor. Students are referred to the department head or a minor coordinator if one exists for questions regarding minors. A student services facilitator is housed in Continuing and Distance Education and is available to assist students in connecting to necessary resources on-campus and online or to assist with general questions regarding online courses.

Library support services will be available to students through a variety of means:

- Students can contact librarians for research assistance. The librarian provides on-line research guides and is available for consultations with faculty and students.
- Distance Library Services include book and article delivery for materials owned by the library. Students may request materials not held by the library through interlibrary loan.
- SDSU students have on-line access to research databases such as *Web of Science*, *EBSCOhost MegaFILE*, and *JSTOR*.

Other student services such as disability services accommodations will be available to students upon request.
