Academic and Student Affairs

AGENDA ITEM: 6 – P

DATE: December 6-8, 2016

SUBJECT: Licensure and Certification Report

The annual Licensure and Certification Report is provided in Attachment I. The examinations included in this report are those that must be passed before a person may be fully licensed or certified to engage in the occupation or profession. Optional examinations are not included.

Students in the following programs achieved a 100% pass rate on the test for which the latest information is available.

<u>University</u>	<u>Program</u>
USD	Clinical Psychology
USD	Dental Hygiene
SDSU	Doctor of Nursing Practice / Family Nurse Practitioner
SDSU	Doctor of Nursing Practice / Neonatal Nurse Practitioner
USD	Physical Therapy
DSU	Respiratory Care

INFORMATIONAL ITEM

South Dakota Board of Regents Performance of University Graduates on Licensure and Certification Examinations

This report provides the Board of Regents with information concerning the performance of university graduates on mandatory professional licensure and certification examinations. For the most part, graduates have an excellent record of success on these examinations.

1. Examinations Included

The examinations included in this report are those that must be passed before a person may be fully licensed or certified to engage in the occupation or profession. Optional examinations are not included. Some examinations, such as Fundamentals of Engineering or CPA, are not included because graduates are not required to take them in order to practice.

2. Limitations

Licensure and certification examinations cover material related to the specific occupation or profession. These examinations do not provide information about how well students perform in general education courses or in courses outside of the examination field.

3. Format

The programs are listed alphabetically. The data are provided by year for five years or for available years.

Each table shows the number of graduates who took the examination, the number who passed the examination, and the pass rate (percentage). Additional information for some programs, such as national pass rates, or mean scores is available for some programs. Where available, this information is provided.

(Note: national rates are not available until the following year)

* Due to the launch of the 4-year Au.D. program, there was a transition period during which there were fewer test takers.

**2012 was another atypical year. We had admitted four students (rather than five) in fall of 2008 due to faculty shortage/opening and inability to provide in-depth supervision to a fifth student at that time. One of these students changed to the SLP master's program and completed that program. A second student was unable to meet retention requirements and subsequently left the program. Therefore, we had only two graduates in 2012. Currently, however, we have full cohorts, and will be again graduating 4-5 students per year for the foreseeable future.

***Note: This graduate retook the exam and subsequently passed; however, it will fall into the next reporting cycle.

^a Not all of our graduates take the national exam unless required by their employment site (for example, academic appointments do not typically require licensure). Most states require one or two years of post-doctoral supervised experience prior to sitting for the exam. USD graduates take the national exam in the state in which they plan to practice. The national examination (Examination for Professional Practice in Psychology, EPPP) is administered through the licensing boards of those states. Each state sets its own acceptable "cut off" scores. Nearly all states also require an oral exam and/or a written jurisprudence exam in addition to the national written exam.

^b National pass rates for graduates from accredited PhD Clinical Psychology Programs are not available annually. The Association of State and Provincial Psychology Boards (ASPPB, who develops/owns the EPPP) provides a five year summary of pass rate for doctoral candidates (all practice specialties in the US and Canada; first time and repeaters). Nationally, the pass rate for candidates taking the EPPP between August 2007-July 2012 was 76.40%.

2009 One graduate has chosen not to take the exam because it is not required for current employment.
 2012 One graduate still plans to take the exam in 2015
 2013 One graduate does not have plans to take the exam because it is not required for current employment.
 2014 One graduate passed the exam in 2013, two passed in 2014 and one passed in 2015. One graduate plans to take exam in December 2015; one does not plan to take as it is not required for current employment.
 2015 One graduate passed in 2015. Five graduates plan to take within the next year; One graduate will not take for about 7 years as she is out of the country.
 2016 Three graduates passed in 2015. All of them took the test and passed.

NOTE: All graduates with the MD degree must successfully pass the Step 1 and Step 2-CK (Clinical Knowledge) examinations prior to graduation. The Step 1 examination is taken following the third semester of medical school and must be passed prior to entering the fifth semester of medical school. The Step 2-CK examination is taken during the sixth semester of medical school.

NOTE: The ASWB allows for the release of pass rate data to graduates' respective social work program. This is a recent practice, thus rates are available beginning with the 2010 reporting cycle (2009 graduates).

Association of Social Work Boards does not place emphasis on bachelor's programs because many jurisdictions do not license BSW-level social workers. USD's B.S. in social work graduates about 30 students/year. The numbers presented above reflect a small percentage of the graduates from the program. The undergraduate faculty will incorporate more testing in courses to acclimate students to timed testing situations. In addition, the program will begin to offer graduating seniors a licensing test workshop, which will better prepare them for the baccalaureate social work examination.

¹ A member of the social work faculty affiliated with the ASWB conducted licensing preparation workshops for BSSW students. This may account for a rebound in scores this past year.

NOTE: The ASWB allows for the release of pass rate data to graduates' respective social work program. This a recent practice, thus rates are available beginning with the 2013 reporting cycle (2012 graduates).

³ The Clinical Examination is taken by graduates who have completed a minimum of two years of full-time, appropriate supervised post-MSW employment as a licensed social work at the Certified Social Worker (CSW) level. Upon successful completion of the test and other requirements, the individual then receives the designation as a Certified Social Worker in Private or Independent Practice (CSW-PIP). In 2014, only one MSW Program graduate took the Clinical Exam and did not pass. In 2015, 3 individuals took the Clinical Exam for the first time and passed it. Two individuals re-took the exam, and one passed; the other did not. We do not know if the individual who took and failed the test in 2014 was one of the two people who retook the exam in 2015. Department faculty will reach out to MSW program graduates and invite them to participate in the licensing preparation workshop offered each spring semester. Test preparation will include the Clinical Exam.

⁴ The first cohort of MSW students graduated in 2012. Because it takes a minimum of 2 years for graduates to become eligible to take the Clinical Exam, we would expect to begin to see scores in the ASWB report show up in 2016 and thereafter. Unless a graduate wants to engage in private or autonomous practice, the advanced clinical license is not required. This may account for the small number of graduates taking the exam.

*National pass rates were not available until 2012. Average national pass rate is 75-85%; accreditation standards desire three-year average pass rate of 80%, which USD students consistently exceed.

**The higher number of graduates taking the Praxis in 2015 reflects the graduation of our second and final distance cohort along with our on-campus students.
