SUBJECT

New Undergraduate Certificate: USD Digital Marketing

CONTROLLING STATUTE, RULE, OR POLICY

BOR Policy 2:23 – Program and Curriculum Approval

BACKGROUND / DISCUSSION

The University of South Dakota (USD) seeks permission to offer a new undergraduate certificate in Digital Marketing for non-business majors. This certificate will use existing courses developed for the BBA marketing major to allow non-business students to benefit from study in marketing principles, digital marketing concepts, and digital marketing tools. Students will also be exposed to promotions, sales, and consumer behavior along with other marketing concepts such as integrated marketing strategies.

It is intended and anticipated that the primary audience will be non-business majors. Business majors with an interest in this subject area will most likely undertake a double major, with marketing as one of the majors.

USD seeks permission to offer the proposed certificate on campus, off campus (i.e., at the Community College of Sioux Falls), and online.

IMPACT AND RECOMMENDATION

This proposed certificate is composed of existing courses in the marketing curricula within USD’s Beacom School of Business.

USD does not request new state resources for the proposed certificate.

Board office staff recommends approval of the new certificate program.

President or Chief Academic Officer of the University

Note: In the responses below, references to external sources, including data sources, should be documented with a footnote (including web addresses where applicable).

1. **Is this a graduate-level certificate or undergraduate-level certificate?**

   Undergraduate Certificate ☒  Graduate Certificate ☐

2. **What is the nature/purpose of the proposed certificate?** Please include a brief (1-2 sentence) description of the academic field in this certificate.

   The Beacom School of Business seeks permission to offer a new undergraduate certificate in Digital Marketing for non-business majors. This certificate will use existing courses developed for the BBA, marketing major to allow non-business students to benefit from study in marketing principles, digital marketing concepts, and digital marketing tools. Students will also be exposed to promotions, sales, and consumer behavior along with other marketing concepts such as integrated marketing strategies, thus adding depth to the non-major’s college experience and adding value to the student’s degree.
3. If you do not have a major in this field, explain how the proposed minor relates to your university mission and strategic plan, and to the current Board of Regents Strategic Plan 2014-2020.

4. Not applicable. The University of South Dakota offers a major in marketing.

5. Provide a justification for the certificate program, including the potential benefits to students and potential workforce demand for those who graduate with the credential.

The global world today is becoming an increasingly digital world. Improving a business’ ability to market in this world requires an understanding of marketing concepts, acquisition of digital tools & technology skills, and ability to utilize marketing skills to enhance a consumer’s digital experience. According to LinkedIn, as reported by CNBC, the 25 most in-demand technical skills companies most need includes social media marketing and digital marketing.¹ This Digital Marketing Certificate provides the non-business major with exposure to both areas, thus enhancing their skill set and employability for the digital world. Additionally, according to the National Association of Colleges and Employers, the ability to sell and influence others was one of the top 10 skills employers say they seek in potential new employees.²

The Digital Marketing Certificate knowledge and skills such as the technical expertise to analyze digital traffic patterns is a valuable asset for employees, especially with the increasing usage of artificial intelligence and machine learning.³ Whether targeting consumers, other businesses, donors, or others, one’s digital marketing communication should revolve around a well-developed digital marketing strategy.

This certificate will assist non-business students on their pathway to enhanced occupational opportunities and contributes to the Board of Regents’ 2014 Strategic Plan efforts to “contribute to the state’s workforce and economic development.”

6. Who is the intended audience for the certificate program (including but not limited to the majors/degree programs from which students are expected)?

It is intended and anticipated that the primary audience will be non-business majors. Business majors with an interest in this subject area will most likely undertake a double major, with marketing as one of the majors.

7. Certificate Design
   A. Is the certificate designed as a stand-alone education credential option for students not seeking additional credentials (i.e., a bachelor’s or master’s degree)? If so, what areas of high workforce demand or specialized body of knowledge will be addressed through this certificate?
      N/A

B. Is the certificate a value added credential that supplements a student’s major field of study? If so, list the majors/programs from which students would most benefit from adding the certificate.

Yes. This certificate is an added value for all non-business majors who anticipate entering the workforce. Business majors desiring this knowledge and skill set will most likely pursue a double major, with marketing as one of the majors.

C. Is the certificate a stackable credential with credits that apply to a higher level credential (i.e., associate, bachelor’s, or master’s degree)? If so, indicate the program(s) to which the certificate stacks and the number of credits from the certificate that can be applied to the program.

This certificate is stackable. All 9 credits can apply as electives in an Associate’s degree in General Studies.

8. List the courses required for completion of the certificate in the table below (if any new courses are proposed for the certificate, please attach the new course requests to this form).

Certificate programs by design are limited in the number of credit hours required for completion. Certificate programs consist of nine (9) to twelve (12) credit hours, including prerequisite courses. In addition, certificates typically involve existing courses. If the curriculum consists of more than twelve (12) credit hours (including prerequisites) or includes new courses, please provide explanation and justification below.

9. Student Outcome and Demonstration of Individual Achievement.

Board Policy 2:23 requires certificate programs to “have specifically defined student learning outcomes.

A. What specific knowledge and competencies, including technology competencies, will all students demonstrate before graduation? The knowledge and competencies should be specific to the program and not routinely expected of all university graduates.

Digital Marketing Certificate graduates will demonstrate an:

1. understanding of:
   a. fundamental marketing concepts and terminology,
   b. principles, generalizations and theories of marketing, and
   c. marketing mix-price, product, promotion and placement (distribution), consumer behavior, business to business marketing, market segmentation and positioning, marketing management, integrated marketing communications, and relationship marketing.

2. ability to design an appropriate marketing mix for an identified market segment.
3. ability to develop cohesive digital marketing strategies and effective digital campaigns.
4. illustrate the concept of digital strategy by creating a digital marketing audit and digital marketing plan.
5. ability to differentiate various technical solutions by creating a custom scoring system and evaluating digital marketing software tools.

B. Complete the table below to list specific learning outcomes – knowledge and competencies – for courses in the proposed program in each row. *Label each column heading with a course prefix and number. Indicate required courses with an asterisk (*). Indicate with an X in the corresponding table cell for any student outcomes that will be met by the courses included. All students should acquire the program knowledge and competencies regardless of the electives selected. Modify the table as necessary to provide the requested information for the proposed program.*

10. Delivery Location.
Note: The accreditation requirements of the Higher Learning Commission (HLC) require Board approval for a university to offer programs off-campus and through distance delivery.

A. Complete the following charts to indicate if the university seeks authorization to deliver the entire program on campus, at any off campus location (e.g., UC Sioux Falls, Capital University Center, Black Hills State University-Rapid City, etc.) or deliver the entire program through distance technology (e.g., as an on-line program)?

11. Additional Information:

This proposed certificate is composed of exiting courses in the marketing curricula within the Beacom School of Business. No additional resources are anticipated. The goal is to enhance students’ educational experience providing them with additional skills to enhance their preparation for the workforce.
