Academic and Student Affairs

AGENDA ITEM: 9 – E

DATE: June 28-30, 2016

SUBJECT: BOR Policy 4:15 Revision – Sabbatical Leave (First Reading)

During executive session of the May 2016 Board of Regents meeting the Board discussed a request to waive the return to service requirement established in Board of Regents Policy 4:15 Leave. Specifically section 4.G of the policy stipulates that following the conclusion of a faculty member improvement, career redirection, or sabbatical leave the faculty member must return for two academic years of full-time service or repay the full salary and institutional costs incurred during the leave period. Currently, Board policy language indicates that this may only be waived in instances of death/disability or when a reduction in force occurs within the designated return to service period. Any such waivers must be approved by the Board. To provide opportunities for a president to request a waiver that may be within the best interest of the institution, the following additions/modifications to section 4.G is being advanced for Board of Regents approval.

G. All faculty members receiving faculty member improvement, career redirection, or sabbatical leave are required to return to the institution granting the leave for at least two (2) academic years of full-time service or to refund the full salary and institutional costs of fringe benefits received while on leave. If a faculty member returns, but fails to perform the full two (2) years return-to-service obligation, then the repayment obligation shall be prorated. Should the faculty member return but fail to fulfill the full two-year service requirement, the amount to be reimbursed shall be pro-rated and shall be due one (1) calendar year from termination. Any repayment obligation which remains unpaid after falling due shall accrue interest at an annual rate equal to the monthly average prime rate of interest offered by the First Bank System during the leave period plus two percentage points. A faculty member who cannot perform return-to-service obligations due to death or permanent and total disability or reduction in force shall be released of all repayment obligations. Determination of whether a faculty member is to be considered disabled shall be made by the Board.

1. At the request of the faculty member and the president of the university supporting the sabbatical, faculty member improvement, or career redirection leave, the Board may ~~approve the transfer of~~ all or part of ~~a sabbatical leave the~~ repayment obligation to another campus within the system.

(Continued)

DRAFT MOTION 20160628_9-E: I move to approve the first reading of the proposed revisions to BOR Policy 4:15 as presented in Attachment I.

2. Universities recruiting faculty members may not expend funds to assist faculty members in meeting financial commitments related to sabbatical, faculty member improvement, career redirection, or similar leave service repayment obligations.
3. At the request of the president of the university, the Board may waive some or all of the return-to-service obligations or some or all of the repayment obligation when the Board determines that such waiver is in the best interest of the institution.

Policy Manual

SUBJECT: Leave

NUMBER: 4:15

1. Family Medical Leave

Please see Human Resources for more information regarding the Family Medical Leave Act. Anything not included in this policy that is covered by federal or state regulations will be adhered to according to the law.

A. Family Medical Leave Definitions

1. **Benefit** – Employees eligible for family medical leave are entitled to twelve (12) weeks of paid or unpaid leave due to a serious health condition, birth or adoption of a child, and for the care of a child, spouse, or parent who has a serious health condition. The use of paid leave must comply with SDCL 3-6-6, 3-6-7, and 3-6-8.
2. **12-month period** – The 12-month period is defined as a measuring forward period from the date of an employee's first qualifying event. For example, an employee has a child on April 1; therefore, the 12-month period is April 1 through March 31.
3. **Health Care Provider** – A doctor of medicine or osteopathy who is authorized to practice medicine or surgery by the State of South Dakota, or any person determined by the U.S. Secretary of Labor to be capable of providing health care services.
4. **Spouse** – A spouse is a husband or wife as defined or recognized under state law for the purposes of marriage. South Dakota does not recognize common law marriage.
5. **Parent** – This is a person who is the biological parent of the employee or an individual who stands or stood in as a parent to an employee when the employee was a child.
6. **Son or Daughter** – This is a biological, adopted, or foster child, a stepchild, a legal ward, or a child of a person standing in for the parent, who is under 18 years of age. It includes others who may be older if the son or daughter is not capable of self-care due to a mental or physical disability. A person who stands in as a parent includes a person who has the day-to-day responsibility to care for and financially support a child. In the case of an employee, this includes the person who had that responsibility for the employee when the employee was a child. A biological or legal relationship is not necessary.

7. **Serious Health Condition** – This is defined as an illness, injury, impairment, or physical or mental condition that involves:
 - A. Any period of incapacity or treatment in connection with or consequent to inpatient care in a hospital, hospice, or medical care facility;
 - B. Any period of incapacity requiring absence from work, school, or other regular activities, of more than three calendar days, that also involves continuing treatment by a health care provider, or continuing treatment by a health care provider for a chronic or long-term health condition that is incurable or so serious that, if not treated, would likely result in a period of incapacity of more than three calendar days; and for prenatal care. The term is not intended to cover short-term conditions in which treatment and recovery are brief. These conditions are covered by the usual sick leave policy.
 - C. Examples— Examples of serious health conditions include but are not limited to: heart attacks, heart conditions requiring heart bypass or valve operations, most cancers, back conditions requiring extensive therapy or surgery, strokes, severe respiratory conditions, spinal injuries, appendicitis, pneumonia, emphysema, severe arthritis, severe nervous disorders, injuries caused by serious accidents on or off the job, ongoing pregnancy, miscarriages, complications or illness related to pregnancy, such as severe morning sickness, the need for prenatal care, childbirth and recovery from childbirth.

8. **Intermittent Leave** – This is leave taken in separate periods of time due to a single illness or injury, rather than for a continuous period of time. It may include leave periods from one hour or more to several weeks. Examples include leave taken on an occasional basis for medical appointments, or leave taken several days at a time spread over a period of months, such as for chemotherapy.

9. **Reduced Leave Schedule** – This is a leave schedule that reduces the usual number of hours per workweek or workday of an employee.

B. Employee Eligibility Requirements

1. The employee must have worked at least 12 months for the state.
2. If the employee is subject to the overtime provisions of the Fair Labor Standards Act, the employee must have worked at least 1250 hours, excluding overtime, during the 12-month period immediately prior to the date the leave would begin.

C. Qualifying Events Eligible for Family Medical Leave

1. The birth or the care of the employee's newborn child;
2. The placement with the employee of a child for adoption or foster care;
3. The care of the employee's spouse, child, or parent with a serious health condition; and

4. The serious health condition of the employee that leaves the employee unable to perform the functions of his or her job.

D. Length of Leave

1. Employees eligible for family medical leave are entitled to a total of twelve (12) weeks of family medical leave during the course of each 12-month period; however, employees utilizing family medical leave for the birth of a child, for the placement for adoption of a child in their home, or to provide foster care of a child can use only twelve (12) weeks for that purpose within one year of the date of birth or placement of the child.
2. Employees are able to take leave through a reduced schedule or for intermittent periods for their personal serious health conditions or to care for the employee's sick family member. However, if leave is taken due to the birth of a child or placement of a child for adoption or foster care, an employee may take leave intermittently or on a reduced schedule only with the approval of his/her supervisor.
3. Additional leave may be granted to employees beyond the amounts mandated by the Family Medical Leave Act. However, Board policies and CSA rules governing leaves continue to apply.

E. Coordination of Family Medical Leave With Other Leave Benefits

1. Consistent with state, Board policy, and the administrative rules governing leave usage, family medical leave is not necessarily paid leave. BHR and the SDBOR require all employees to use sick leave, annual leave, and/or personal leave for the qualifying event of a serious health condition for self and personal leave and/or annual leave for any other qualifying event. The use of paid leave must comply with SDCL 3-6-6, 3-6-7, and 3-6-8.
2. It is the practice that any eligible employee, as defined by the state, may take up to six (6) weeks of sick leave immediately following the birth or adoption of a child.
3. In accordance with SDCL and ARSD, employees may be allowed to receive donated leave after all other leave has been exhausted.
4. At no time will an employee be eligible for more than the allotted 12-weeks approved by federal law for the purpose of FMLA; however, with approval employee could utilize a leave of absence beyond the 12-weeks depending upon the circumstance.

F. Notification

1. Employees must provide their supervisor with at least 30 days notification if the family medical leave event is foreseeable. Typical foreseeable events are the birth or adoption of a child or the planned medical treatment for a serious health condition of the employee or the employee's family member. If the need for the leave is not foreseeable due to a change in circumstances or due to an emergency, the notice must be given as soon as practicable. Notice may be verbal, but a written request must be submitted to the supervisor to comply with record keeping requirements.
2. If an employee does not give timely advance notice of the need for family medical leave that is foreseeable, the employee's supervisor may deny the leave request until thirty (30) days after the employee provides the notice.

G. Medical Certification

1. The supervisor may, after consulting with Human Resources, require that the employee certify through a physician that a serious health condition does exist. If requested, the employee will have a reasonable time period (in most cases 15 days) in which to supply such certification. Employee may lose eligibility of the Family Medical Leave Act if proper certification is not completed prior to onset of leave or within 15 days of the onset of the serious health condition. This certification shall contain the following:
 - a. The date when the serious health condition began,
 - b. The probable duration of the condition,
 - c. The appropriate medical facts within the knowledge of the health care provider regarding the condition,
 - d. If the leave is due to the employee's serious health condition, the certificate must include a statement that the employee is unable to perform the functions of his or her position,
 - e. If planned medical treatment is the reason for the leave and employee wants intermittent leave or leave on a reduced time schedule, the date when the treatment begins and the estimated duration of the treatment,
 - f. If the leave request is necessitated by a serious medical condition of the employee or the employee's child, spouse or parent, the certificate shall state that there is a medical necessity for the leave and an estimate of how long the leave will be, and
 - g. Date and Signature of Health Care Provider.
2. The employee may be required to obtain a second opinion at the employer's cost from a second health care provider of the employer's choice. If the second opinion conflicts with the first opinion, the employer may request a third opinion at the employer's cost. The employer and the employee must jointly agree on the person providing the third opinion. The third opinion is final and binding.

3. If an employee has suffered from a serious health condition which would prevent the employee from performing the essential functions of the employee's job or which would jeopardize workplace safety, the supervisor may, after consulting with Human Resources, require medical certification before reinstating the employee.
4. The employer may request additional medical certifications as deemed necessary and in compliance with FMLA.

H. Benefits

1. Employees utilizing family medical leave will be allowed to continue to participate in the state health insurance plan as if the employee were not on leave. The institution will continue to pay the amount necessary to continue the employee's personal health insurance coverage on the same basis while the employee is participating in the leave program. However, the employee will be required to pay the amount needed to continue coverage beyond that provided as part of the state benefit package.
2. If the state provides a new health plan or revises the health plan during the employee's family medical leave, the employee is entitled to change his/her benefit selections just as if the employee were continuously employed.
3. If an employee does not return from a family medical leave, the state is entitled to recover the health premiums paid on behalf of the employee. However, a campus may not recover its share of the employee's health plan premium if the employee does not return to work due to the continuation, recurrence or onset of a serious health condition or other circumstances beyond the employee's control. A campus may not recover its share of health insurance premiums for any period of FMLA leave covered by paid leave.
4. Employees on an unpaid leave will not accrue sick or annual leave benefits.

I. Returning From Family Medical Leave

1. Upon returning to work from a family medical leave, an employee is entitled to the same or equivalent position. An equivalent position must have the same pay, benefits and working conditions, including privileges, perquisites, and status. It must involve the same or substantially similar duties and responsibilities, which must entail substantially equivalent skill, effort, responsibility, and authority.
2. Employees on family medical leave have no greater entitlements to continued employment or benefits than they would have had if they remained continuously employed during the family medical leave period.
3. Employer may request a return-to-work certificate to ensure employee is able to perform the essential functions of the position.

2. Extended Leave of Absence

Leave of absence without pay may be granted to faculty or other Regental employees for one (1) year, with an allowable extension not to exceed one (1) additional year for educational reasons, employment, or experiences that would be of benefit to individuals, their disciplinary area, or administrative assignment at the institution, or in order to hold political office.

3. Employer-Paid Group Insurance for Employees on Leave Without Pay or Temporary Reduction to Less than Full-Time Employment

An employee granted a leave or temporary reduction that exceeds these conditions shall be required to continue group health/life/ADD coverage if they have not been allowed to opt out of the state of South Dakota group health insurance plan by the Bureau of Human Resources. If the employee has not opted out of the health plan, the institution has the option to pay the premiums on behalf of the employee or to require that the employee make the premium payments as a condition of granting the leave without pay request.
- B. Nine, ten or eleven month employees who have contracts and/or letters of intent and/or letters of notification of employment for the following year shall continue to have their share of the premium paid for by the employer for the non-appointment period.
