Capital Asset Purchases Greater than $250,000

South Dakota State University

BD FACSJazz (Becton-Dickinson Florescence-Activated Cell Sorting) System: This Chemistry/Biochemistry Department equipment will be used to sort and analyze cells. The cost for this item is $283,150. The equipment is vital to establish the Imaging Core and High Content Facility of BioSNTR (Biochemical spatio-temporal NeTwork Resource). It will allow for state-of-the-art analysis of biochemical pathways within the BioSNTR ranging from cells of the immune system to cells that mediate nitrogen fixation in soybeans. Funding for this purchase will come from a National Science Foundation/EPSCoR grant funds.

Maintenance & Repair Projects

Black Hills State University

Electric Meter replacement: This project involves the design and installation of additional electric meters at an estimated cost of $95,500. The new meters will be connected into the Building Automation System for accurate utility accounting. Funding for this project will come from previously approved FY15 HEFF M&R of $58,608 plus an additional FY16 HEFF M&R residual funds.

Black Hills State University Center – Rapid City

Laboratory Fume Hood Installation: This project involves the installation of two fume hoods in existing laboratory space at an estimated cost of $70,000. Funding for the project will come from a previously approved FY16 HEFF M&R Classroom Upgrade project for $60,000 plus $10,000 in residual FY15 HEFF M&R funds.

South Dakota State University

Hansen Hall Academic Evaluation and Assessment Testing Center Planning: This work request is for the programming, planning and design for a partial renovation in the basement level of Hansen Hall at an estimated cost of $50,000. In the fall of 2015, the Academic Evaluation and Assessment Testing Center (AEA) will be moved from the SDSU Foundation Building.
