RESOLUTION TO CONDEMN PROPERTY

Dr. Shekleton said the resolution to condemn property has been revised to empower SDSU to purchase real estate at a cost not to exceed \$275,000, as provided in legislation that authorized the purchase, upon approval of the Executive Director. Information received in the eleventh hour after conversations with the seller made it clear that there remained a possibility that a purchase might yet be effected without the necessity of completing condemnation proceedings. If such an opportunity were to arise, SDSU might be able to advance construction of the second phase of the SDSU Electrical Engineering and Computer Science Building. The property is currently occupied by the SDSU chapter of the AEA sorority.

Regent Baloun said the Board had not succeeded prior to this meeting in negotiating the purchase, so it was now ready to proceed with a condemnation of the property. If eleventh hour negotiations prove successful, the Board is prepared to seize the opportunity. The revised motion will permit completion of the transaction if the negotiations are successful, but if negotiations fall through, the condemnation will move forward.

IT WAS MOVED by Regent Krogman, seconded by Regent Morris to adopt a resolution to rescind the outstanding offers to purchase land owned by Alpha Xi Delta Corporation of Brookings.

Adopt a resolution of necessity to condemn land owned by Alpha Xi Delta Corporation of Brookings, a South Dakota nonprofit corporation, and occupied by the ΑΞΔ Sorority, in order to take the property for the purpose of constructing the Phase II Expansion of the South Dakota State University Electrical Engineering and Computer Science Building, as authorized by chapter 100 of the 2010 Session Laws, which property is described as:

W 85' of Lots 1, 2, and 3, Block 1, Wheaton's addition, City of Brookings, Brookings County, South Dakota, also known as 1203 Eighth Street.

Authorize South Dakota State University, upon approval by the Executive Director, to purchase the subject property for a sum not to exceed \$275,000, in the event that the Alpha Xi Delta Corporation of Brookings offers to sell the property.

All members voting AYE. The MOTION CARRIED. A copy of the Resolution to Condemn Property can be found on pages 2591 to 2596 of the official minutes.

RESOLUTION REMOVING CERTAIN RESIDENCE HALLS AT THE UNIVERSITY OF SOUTH DAKOTA FROM THE HOUSING AND AUXILIARY FACILITIES SYSTEM

Dr. Shekleton stated that the bond covenants provide for a mechanism to remove from the housing project, facilities when the cost or maintenance, repair or renovation exceeds revenues. Two housing projects at the University of South Dakota reached the point at which the cost of trying to refurbish them and renovate them exceeds their revenue generation capacity. USD requests authorization to remove Cypress Court and Redwood Court from the housing stock and bond counsel has prepared the appropriate resolution to accomplish that, consistent with the bond covenants. The facilities will continue to be used on an interim basis for cold storage.

IT WAS MOVED by Regent Morris, seconded by Regent Jewett to adopt the Resolution Removing Certain Residence Halls at the University of South Dakota from the Housing and Auxiliary Facilities System.

FY12 BUDGET REQUEST

Mr. Kramer reported that the Board met with the institutions in a roundtable in June and there were three priorities identified at that time. The priorities include the replacement of the federal stimulus dollars in the Board's base budget; the support of salary policy; and the concern that our budget cannot sustain additional cuts. Over the last two fiscal years the Board of Regents have had a 5% cut in their base, or a total of about \$10.3M. This is happening at a time when our research activity is at an all time high, but that is not sustainable in an environment where we are cutting our faculty and the people who are conducting the research.

Mr. Kramer said the Budget has been discussed with the Board over the past few days and two of those items have been put into a priority called "Maintain Base Public Support". That simply means that the Board is requesting the same base public support that it had in the FY11 budget. The second priority is the salary policy. The Board has had salary policy as a priority for many years and as a result the Board adopted the Salary Competitiveness Fee. The Regents need the ability to retain and recruit quality staff for the Board office and the institutions. The Board is asking for a modest increase in the General Fund Base to fund a salary policy.

Regent Baloun said the Regents understand and have been a partner with the State in these last two years, going into the third year, as we work through the budget crisis that all states are in. It is important to note that two years ago the Regents shared in 100% of the state budget cut, or \$3.8M and last year the Regents received about 80-85% of the budget cut to state agencies. He said the Regents are asking the citizens, the taxpayers of the state, to let us continue to maintain the success that we have had after those cuts over the last two years. Therefore, the Regents are asking for a flat budget request. He said there still may be some challenges in the budget, i.e. how do we handle utility payments, how do we handle health care needs; and that does not include any increases in inflation that occur. The Regents understood that this budget crisis was a three or four year process and have carried more than their fair share the first two years, and now it is hoped that other agencies will take their share of the cuts so that the Regents can get caught up.

Regent Jewett commented that simple fairness dictates that if we comprise 15% of the state budget, we should not be compelled to pay 100% of the cuts one year and 85% of the cuts the next year. He said that is not budgeting! It is not money out of Regents' pockets; it is money out of the students' pockets and the students' opportunities.

Regent Krogman commented on what the Regents are going to do to "sell" this budget since we have not had real success in the last few years. He said what the Regents have done differently is that they are looking at three different initiatives or a combination of initiatives on how to market the university system, and while that doesn't sound like anything new, it really is. When we get traction in the legislature, it is because we can make the argument of economic development and moving forward in that area. The other area is not only talking about the value of a degree

earned by students, it is the value of the university in each community. We really have to get the communities behind us more than they have in the past and for legislators to understand the importance of each university in each community. We will use the Economic Impact Study that was just completed in the best way we can to sell higher education. Regent Krogman said that is the proactive side of what the Regents are going to do when they talk to communities and to legislators.

Regent Baloun said the Regents have also conducted research on national and local aspects of the value of the education, what it does in lifetime learning, what it does in a world environment that we are in, what it does in terms of economic impact for the individual and the state, what it does in difficult times in dealing with unemployment, what the value of it is in terms of repayment ability for student loans, etc. This will be a collaborative process between the university and the system as a whole, and how it impacts our local community and how it benefits the entire state. He added that the economic impact engine that each of the universities has on the communities in which they exist is tremendous.

IT WAS MOVED by Regent Johnson, seconded by Regent Pagones to approve the FY12 Budget Request to include maintenance of public support for the special schools and public universities, and funding for a 2% salary adjustment. Direct the staff to prepare and submit the FY12 Budget Request detail and justification to the Bureau of Finance and Management and to refine any budget request figures as necessary. Any needs for federal and other expenditure authority and full-time-equivalent (FTE) requests should be included. All members voting AYE. The MOTION CARRIED. RESOLUTION OF COMPLIANCE WITH THE SOUTH DAKOTA ENVIRONMENTAL POLICY ACT

Dr. Shekleton stated that the South Dakota School of Mines and Technology has a sub-grant to help administer some of the conversion projects for the Homestake Mine into the Deep Underground Science and Engineering Laboratory. This circumstance raises the question whether the activities undertaken as part of the conversion project require an environmental impact statement pursuant to the South Dakota Environmental Policy Act. The Secretary of the Department of Environmental Resources has advised that there would not be a requirement for South Dakota to have an Environmental Impact statement, and the resolution memorializes the correspondence.

IT WAS MOVED by Regent Jewett, seconded by Regent Hansen to adopt a resolution finding that the environmental impact statement being prepared pursuant to National Environmental Policy Act of 1969, 42 U.S.C. § 4321, ff, and 34 C.F.R. §§ 1502.13 through 1502.16 and 1508.8, in order to assess the environmental impact of converting the Homestake Gold Mine into a Deep Underground Science and Engineering Laboratory will be consistent with the requirements of SDCL § 34A-9-7 and thus relieving the South Dakota School of Mines and Technology of any obligation to prepare an additional statement to comply with the South Dakota Environmental Policy Act, SDCL ch 5-22. All members voting AYE. The MOTION CARRIED. A copy of

the Resolution of Compliance with the South Dakota Environmental Policy Act can be found on pages 2606 to 2610 of the official minutes.

SOUTH DAKOTA STATE UNIVERSITY GREEK VILLAGE LEASE

Dr. Shekleton indicated that the Board approved a master ground lease with the South Dakota State College Development Association to assist in developing a housing site for fraternities and sororities. The attorney for one of the prospective sorority tenants requested that the Board amend certain provisions that relate to the options the sorority or a fraternity would have in the event that the entity gets into financial difficulty or is no longer able to maintain its status at the University. The affected provisions define options for chapter houses owned by fraternity or sorority-related student housing corporations. The amendments increase the security of the student housing corporations by allowing them to house non-member students if the fraternities or sororities encounter financial difficulties. The amendments continue to make clear that chapter houses cannot operate as profit centers for an out-of-state corporation; if it becomes necessary to rent to non-members, their rental rates will not exceed the rates for members.

Dr. Shekleton added that the master lease agreement had also been amended to assure that the Board would honor non-disturbance agreements in the event that the State College Development Association and the Board decided to terminate the master lease. The original lease had only provided this assurance to subtenants in the event that the Board terminated the lease as a result of a default by State College Development Association. Hence, the amendment that covered mutual termination corrected an oversight.

IT WAS MOVED by Regent Morris, seconded by Regent Pagones to approve the amendment to the June 25, 2010 master ground lease between the Board and the South Dakota State College Development Association. All members except Regent Jewett voted AYE. The MOTION CARRIED. A copy of the South Dakota State University Greek Village Lease can be found on pages 2611 to 2620 of the official minutes.

SPECIAL THANKS

Regent Baloun thanked the Regents for the time and effort, and more importantly for their engagement as they worked through the retreat agenda in planning for the coming year. These are long tiring days, but at the end of the day, they help pave the way for the coming year, and they have 35,000 students who depend on the Regents to do that. On behalf of all of the students in the public higher education system, he thanked the Regents for being actively engaged.
